"Encuentros 2017"

Increase your Network and learn while exchanging

When arriving to Switzerland, you may have felt like jumping in the cold water. You were busy taking your new job, learning another language, focusing in your studies, or looking for a job.

Getting use to a new culture is not an easy challenge; we have prepared a row of events in which we have selected a group of "Senior" Mexicans; living for a long period in Switzerland". Who will share their valuable experience with us and may try to help you to make the best of your time in Switzerland.

The aim of the group is to establish a network between the Mexican Professionals living in Switzerland, or people interested in the relationship between Mexico and Switzerland.

We strength the community of highly-qualified Mexican expatriates while promoting the professional and personal development.

We exchange experiences, know-how and provide support during the expatriation process, job search, local culture, career development, etc.

We serve as a networking platform and reference point for the professional Mexican diaspora and Friends of Mexico.
